In Odd Fellows' Hall every Sunday morning, at 11 o'clock. Subject for Sept. 29th. is "Reality." You are cordially invited. Sunday School at 9:45.

Chico—2400 acres to be planted in rice purchased from Butte county by Union Enterprise Co. of San Francisco.

Richmond—Brooks Islands purchased by Healy-Tibbitts Co. and reincorporated for $500,000.

GIVING

JUST MONEY! That is all we're asked to give.
He gave his life, Jim. He'd have liked to live
For Betsy — bless her shy young heart—had only
The week before he left, put on his ring.
How long her life will be to her, how lonely
With nothing of him but remembering!
She never flinched, nor he, my son, THEY gave;
She working still, and Jimmie in his grave.

And now to-day we're asked again to save,
And give, give, give the country what we've sweat
And toiled to earn, it's hard for all—and yet,
We safe, we calm, we fortunate, we living,
I wonder, dare we, DARE we call THIS giving?

MARY CAROLYN DAVIES.

Volunteer for Bonds Today

Local and Personal

For rent—Six-room Cottage, Bath, etc. See RALSTON ALISON.

E. E. SOWER for Men's Shoes, and Shoe repairing. Neolin soles and rubber heels.

Lost: A gold bar pin, on Campbell avenue. Finder please leave at Press office.

Miss Gladys Coupland went to Escalon Sunday for a month's visit with her sister, Mrs. Andrew Larson.

Mrs. Genevieve Van Arsdell arrived from Hollister yesterday to visit her mother, Mrs. Ethel Davis, for a time.

For Sale:—Six-room cottage; bath, etc—Two large lots cheap. Terms. See RALSTON ALISON.

George Higbee, Jr., returned home Saturday from Camp Bowie, Ft. Worth, Texas, where he was enlisted in special service.

Born: To Mr. and Mrs. Stanley B. Smith, a daughter, Tuesday, Sept. 24. Mother and child are doing nicely while Stanley just smiles.

Cambrian School will open its fall term Monday, Sept. 30, with Miss Philona Goldsworthy as principal and Miss Miriam Green assistant.

Miss Florence Carlisle returned Saturday from Quincy where she spent a most delightful summer vacation with her brother in the Sierras.

Will party who picked up red rimmed oil can at corner of Rincon avenue and Los Gatos road, please return to owner in care of Blaine's store.

Wallace Craig, Frank Mendel and Edward Vandergon went to Capitola Monday to spend a week in the salt dips before returning to Stanford.

Clifton Carter is home from the Naval Reserve training camp at San Diego on a 10-day furlough. He will go to New York to attend a gunners' school.

Palm Leaf Lodge urges its members to be present this Saturday night as business of importance is to be passed on, and a full attendance is desired.

Mrs. W. S. Shelly entertained the Los Gatos Road Club at her home yesterday afternoon, while the members plied busy fingers sewing for the Belgian Relief.

Ira Brown writes from France that he was about to move with his company and he has learned that when a move is made there is sure to be some mixin' before long.

The Moreland school will commence its fall term on Monday, Sept. 30. Miss Jane Ann Rinn is the principal assisted by Mrs Harriet B Gerhardt in the primary department.

A party of admiring young friends gave Philip Gordon Robson a very pleasant surprise Thursday afternoon Sept. 19, his first birthday anniversary, by dropping around and wishing him many happy returns of the day.

Mrs. M. L. Waite writes that Mr. Waite is still in Minnesota where it has begun to get cold and he thinks California will look good to him before long. Mrs. Waite says that apples are ripe at her house and they would taste good to Campbell friends.

C. E. De Selle has been appointed by Supt. Bateman to fill the vacancy on the Campbell School Board caused by the resignation of J. H. Stubbe. Mr. De Selle has always been interested in local matters and will make an earnest and conscientious official.

Dr. and Mrs. C. N. Cooper and Miss Catherine, Mrs. Theo. Cutting and sons will go to Pacific Grove Monday to spend the month of October. Miss Cooper expects to be called to the nurses' training school soon so will not return to U. C. at present.

The annual exodus of Campbell boys to Stanford began to-day. Among those attending from here are, Delbert Campbell, Wallace Craig, Joe Gomes, Frank Mendel, Russell and Herman Metzler, Leslie La Montagne, Gordon Smith, Archie Steindorf and Courtland Watson.

DON'T

1. Don't write in pencil.
2. Don't write on both sides of the paper.
3. Don't use check number in referring to application.
4. Don't write in reference to previous correspondence, without stating the case again.
5. Don't write letters of thanks to the Bureau of War Risk Insurance. We will assume that you have received checks and information unless we hear from you to the contrary.
6. Don't write the Bureau concerning allotments and allowances until the enlisted man has been in the service at least sixty days. It requires in many cases this amount of time for all operations to be completed.
7. Don't write the Allotment and Allowance Section in regard to addresses of enlisted men. This question can be answered only through the office of the Adjutant General of the War Department, and Bureau of Navigation of the Navy Department.
8. Don't feel alarmed if the insurance certificate is not mailed you at once. The insurance is effective as soon as application is accepted and premium paid. If the government has accepted the application and verified the rights of the enlisted man to take out this insurance, the premium will be mailed in due time.
9. Don't feel alarmed if the check issued by the War Risk Insurance Bureau is smaller than formerly. The full amount of previous allotment or allowance may be obtained through the War or Navy Departments, if the enlisted men will make new and additional application.
10. Don't expect family allowance unless you know that the enlisted man has allotted the required amount from his pay to receive this additional government allowance. The allotment is compulsory only as to wife and children. For other relatives the allotment is voluntary. The allowance is granted only on application by the enlisted man.

Take Another

The San Jose "Bears" stepped right out last Sunday and walloped Alameda to the tune of 5 to 1.

Great credit is due the San Jose club for winning this game as Speed Martin, member of the Chicago Cubs, this season; National League Champions, did the pitching for Alameda.

It was a great game. The crowd was large, the music fine. Hal Rhyne was the hero of the day. Hal kissed "Speed" Martin's fast one for a pretty home run in the third frame with two on. The "Bears" take a rest next Sunday. No game.

Flag Raising

The Country Woman's Club recently was the recipient of a flag a gift from one of its members. A pole has been secured and set on the library lot and a patriotic program, will be given at a formal raising of the flag, this Friday afternoon at 2:30.

As this is "Volunteer Day" for the fourth Liberty Loan, at which time Campbell community expects to do its bit, the ladies have made every effort to make this a most fitting occasion. The program is as follows:

"America"
Remarks—President Ellen R. Smith
Flag raising
Salute
Solo—Mr. W. B. Kammerer
Prayer—Rev. W. H. Lloyd
Remarks—Mr. A. J. Farley
Address—Hon. F. H. Benson
"Star Spangled Banner."

Get your school materials at HARRY SMITH'S.

Miss Eleanor Carter has accepted a school near San Luis Obispo and will go Saturday taking the trip with her brother, Clifton, who returns to the San Diego Naval base that day.

A SQUARE DEAL — Blaine's GENERAL MERCHANDISE — for the Round Dollar

Buy Macaroni in Packages

The "wheatless" campaign resulted in an accumulation of package macaroni stocks. In consequence of this the government is asking consumers to use this class of goods more freely, until stocks are reduced.

Responding to government suggestion, we have ordered a supply of package macaroni, in the "AI" brand. This is "elbow macaroni" of highest quality; that is, it is not ordinary "paste"—it is made from "semolina", the heart, or germ, of the wheat berry. Indeed, it would scarcely be fair to compare it with common macaroni—it is too much better to admit of comparison.

The packages are in two sizes: the small size, nine ounces net, which sells for 10c; and the large carton, two pounds and four ounces net, retailing at 35c.

Gas Masks

Seven pounds of shells are required for one gas mask.

Charcoal absorbs gases. When made from certain materials it absorbs gases better than other charcoal. The highest quality obviously is essential for the gas masks used by our soldiers. Such charcoal is made from the following articles which are common and ordinarily waste material:

Peach stones — Date seeds
Apricot pits — Cherry pits
Prune pits — Brazil nut shells
Plum pits — The shells of hickory nuts.
Olive pits — walnuts and butternuts

Because charcoal made from other shells or pits is inferior, other shells and pits must not be mingled with those enumerated in the list.

The local organization of the Red Cross has charge of collecting materials in every community. Energetic co-operation with the Red Cross is requested. Hotels, restaurants, and business concerns which have shells and pits of the varieties desired have to be canvassed. Collection has to be organized. Materials will be gathered at collection centers, and forwarded in car-load shipments.

Rev. Lloyd to San Jose

By the action of the Methodist Conference, Rev. W. H. Lloyd has been transferred from the Campbell church to Centella at San Jose and Rev. E. G. Keith of San Francisco has been moved to Campbell.

Altho a host of friends here wished him and his family to remain here all are pleased to know of the promotion which carries a larger salary. They will be so close here that we may see them often and visit them occasionally. Mr. Lloyd who has been an active member of the local council will be of aid to the same county council as before.

Another consignment of letters arrived this week from France where all are well pleased with themselves and their health.

Mrs. Eckles has received a letter from Rev. Eckles sent from Limoges Sept. 2. He received six letters in a bunch after quite a wait. Has been very busy as the men press one for work of all kinds. He is in the best of health. The weather is ideal in that part of France where the country is beautiful and green. The officers mess where he dines is good and the cook a master of his art. He finds it a great relief to get to his rooms for a quiet rest. He sends best remembrances to everybody.

Congregational Church Notes

Services at the Congregational church next Sunday will be as follows:

Sunday School at 9:45.
Morning sermon at 11:00.

REV. H. L. PRESTON, Pastor.

What Would Happen

A number of our exchanges have been speculating on what would happen if the government took over the newspapers. Well, the first thing the subscription price would be raised about 50 per cent and the sheriff would be kept busy chasing delinquents. The next step would be to raise wages about 25 per cent, and editors, who hadn't had a cent in six months they could call their own, would be placed on a salary. The merchants who fail to get their ad copy in until press day would be hauled up before the council of defense and our linotype man who hired out for two weeks and quit his job in a week would be sent to Leavenworth for about ten years as a deserter. It looks like a good proposition and we're for it.—The Fairbury (Neb.) *News*.

HARRY C. SMITH
Campbell - - - California

MY LETTER TO HIM

Now this is the letter I write him,
While my heart is sick with dread:
"You are just where you should be, my son,
Standing staunch, where your duty led.

"At home we are well and happy,
And cheerful, and proud of our boy,
In this war of the world—laddie—
A soldier son is a joy!

"Your father struts, just a little,
And 'sis' wears your pin all the while,
While I—well, the star on your Service Flag,
Brings to my lips a smile."

And I write the little nothings,
Of home, that are much when away,
The funny things that have happened
Throughout my homely day.

Then I go and sit by a window,
And look to the rising sun,
Where "over seas"—in the trenches—
He will fight till the victory's won!

Then—going back to my letter
With tear-wet eyes I sign:
"With dear love from your mother
Who is glad her boy's in line!"

—Edna H. McCoy.

Germany's Labor Army.

"Our growing labor army" is the description applied by the Huns to their prisoners of war. According to a communique in the latest Berlin papers, Germany and her vassals between them now hold 3,575,000 prisoners. For the first time the German military authorities lay stress on the supreme value of their prisoners as man power for industry and agriculture. They are so numerous, it is asserted, that they go far toward compensating Germany for the men she has had to withdraw from peaceful pursuits for active military service. "The longer the war lasts," the communique adds, "the more adaptable these prisoners become to the work assigned them, and the more useful to us."

Huns have a majestic awe of big figures. Thus it is explained for their edification that the "labor army" in prisoner camps is numerically greater than the whole male working-class population of Denmark, Norway and Sweden combined, "and is equivalent to one-fifth the total number of working men in Germany before the war."

Cherries From Russia.

That the cherry world has its bolsheviki is explained by Frank A. Waugh in the Country Gentleman. Speaking of the supremacy of certain American varieties, particularly the Morello, Montmorency and Early Richmond, he writes:

"Their supremacy has been often challenged. Other varieties have been offered by dozens and almost by hundreds.

"The greatest competition arose through the introduction of the so-called Russian cherries. These came along with the other Russian fruits, mainly in the importations of 1870 and 1888, and were exploited mainly in the Northwest states.

"Prof. J. L. Budd propagated several of these sorts and recommended them highly. In this company were included Vladimir, Lutovka, Sklanka, Ostheim, George Glass, Double Natte, Lithauer, Brusseler, Braune, Bessarabian, Bunte Amerelle and Spaete Amarelle. There were some others also, bearing the same flavor of northeast Germany and southwest Russia."

Pure Water for Men in Trenches.

Filtered and sterilized water for the men in the trenches at all times is being provided by water trains, the war department announced.

Under the direction of the surgeon general's office sections held by the American forces where permanent waterworks have not been established will be fully supplied by these trains, which are in reality miniature waterworks that chemically treat, filter and sterilize all water used for drinking purposes. Each unit carries an expert chemist, bacteriologist and pumpman, and the water tanks are mounted on motortrucks equipped with powerful lights so that the work can be carried on at night.

Women for British Pulpits.

Woman preachers for Great Britain are a possibility if the government's drafting of men between forty-five and fifty causes a much further shortage in the crop of clergymen.

Already three clergymen have enlisted rather than be put in a noncombatant corps.

That women will make good preachers is the opinion of many of the British clergy.

"Women can deal with many questions that I cannot deal with," says the Rev. Newton of the City Temple.

Saving Wool Rags.

The answer to the question, "Why should we save wool?" is that a fully equipped soldier uses 13 times as much wool as does a civilian. Also that there are not enough sheep raised to meet the needed wool supply.

"Dustin Stax must have been mighty smart to earn such a vast fortune."

"Yes," commented the expert accountant blandly, "but not smart enough to figure out his own income tax."

HOW A PARISIAN AIR RAID FEELS

Red Cross Inspector Tells Thrilling Story of Desperate Moments.

NOISE ACCOMPANIES ATTACK

Yank Engineers Go About Unperturbed While Rescuing Injured—Victims Are Sent to the Sisters of the Poor.

Washington.—Writing of a German air raid on Paris, one of the American Red Cross inspectors gives a thrilling account of how American troops and Red Cross workers give aid to the city in such desperate moments. He describes an air raid in this fashion:

"Nowhere is there any sound but the echoes of footsteps. Not a street light is to be seen, not a single ray of light—nothing but the inkiest and most impenetrable darkness. Then all of the noise in the world seems to break loose. Clang-clang-clang booms the tocsin—like a gigantic pneumatic riveter working on a colossal bell. Whooo-o shrieks the siren, running up and down the scale in an awful wail.

"The streets come to life. Doors open and slam shut. The sidewalks are full of ghostly figures hurrying toward the caves, where the inhabitants have fitted up cots and bunks. They get up now to make a sitting place for the newcomers. The children go to sleep with their heads on their mothers' shoulders, and a girl in the uniform of a street car conductor swaps yarns with a Poilu in dingy blue. In the last raid the front trucks of her car were thrown from the rails by the displacement of air caused by an exploding torpedo. The car and its inmates were unhurt. The Poilu looks a mite incredulous and murmurs: 'I can well believe you, mademoiselle.'

Archies Barrage Sky.

"Outside the noise continues for about three or four minutes and then subsides as a new noise starts—the Archies, or antiaircrft guns, which commence to bark furiously from half a dozen different points. Searchlights rake the sky. The Archies continue their clamor, but they are not firing at anything, merely keeping up a barrage fire to prevent the Boches flying over the city.

"Suddenly there is an earthrocking whoom. No doubt as to where the Boches are. Whoom, whoom, whoom! One involuntarily ducks and tries turtlewise to cover his head with his shoulders. A hideous noise resounds up and down the deserted street—falling walls, and the tinkling and crash of showers of broken glass and roofing tiles.

"Through the glass and litter of the street an American Red Cross camionette comes plowing its way. One of the city firemen stands on the running board.

"'Anybody here from numbers 49 to 51?' he calls. A half dozen voices yell out that there is.

"'Is everybody here from those numbers? Was there anyone left in either of those buildings?'

"There is an anxious calling back and forth and a rapid counting of noses. 'All here,' is the answer!

Send Victims to Poor Sisters.

"Good! Not much left of those two buildings. Don't enter the ruins until they have been inspected by the engineering department. Go to the Sisters of the Poor if you want food or a place to sleep.

"A half-mile away a bright red glow gets larger and larger and lights the sky. A fire has broken out in the railroad yards and is making great headway. Several cars of oil are burning fiercely and spreading to cars of merchandise.

"Two railroaders have got hold of a switch engine and are shunting out whole strings of cars.

"'Do you know anything about these French engines, sir?' asks the impromptu engineer. 'I can't find the d—— brake.'

"The fire is eating its way toward a pier on which stands a line of drums of gasoline.

"'Come on, boys! roll these kegs o' gas outa here,' yells the corporal, and the line of drums starts trundling down the pier. It is infernally hot, and the average man knows just how hot gasoline can get before it begins to misbehave; but the line never wavers.

"'Roll 'em along, boys! Keep 'em going. Everybody has got to die sometime.'

"Little by little things become quieter. The fires die down. The Archies stop. Now the tocsin sounds again, this time with slow, stately measured beats. This is the 'all's clear' signal."

"13" FIGURES IN SINKING

Fateful Number Plays Prominent Part in Connection With Loss of Oransa.

Pittsburgh, Pa.—The figure 13 was very prominent in connection with the sinking of the steamship Oransa, on which were the 57 Y. M. C. A. war workers. The following is part of a letter received at the Metropolitan headquarters of the Pittsburgh Y. M. C. A. from one of the secretaries in London.

"The sailors said they were not superstitious, but—

"The passengers went on board on a Friday.

"The Oransa left America on April 13.

"Thirteen vessels were in the convoy.

"Thirteen preachers were on board the Oransa, also thirteen Methodists.

"It was the thirteenth round-trip for the commander of the convoy and the thirteenth trip for an escorting warship.

"R. C. Bennett, of New York, assigned to berth No. 13, was the only seasick passenger. He moved out. Thomas B. Dawson of Providence, R. I., who took on No. 13, had the narrowest escape.

"The torpedo struck at 1:03 a. m., sinking the Oransa in thirteen minutes.

"Lifeboat No. 13 alone was destroyed by the explosion.

"Upon reaching shore a conference was called in Room No. 13, and one man received hat check No. 13.

"On the thirteenth day out a black cat on board increased the passengers by three black kittens. Aside from that there was nothing connected with superstition."

EXPERIMENTS ON SHELL TO END U-BOAT MENACE

Evansville, Ind. — William Schnabel is experimenting on a shell with which he hopes to end the submarine peril by shooting the U-boat instead of its periscope. He says his shell is nonricocheting and that it will not skip along on top of the water when shot at an angle, as those in use now do.

HIGH COST OF GOVERNMENT

Operation Expense Has Increased 35 Per Cent in the Last Fifteen Years.

Washington.—Now we have the high cost of government. It has risen 35 per cent in the last 15 years, according to a recent department of commerce report on financial conditions of 219 cities in the country.

The report shows that the average American city is in a healthy financial condition, run on good, business-like lines. The total revenues were $1,065,537,142, or $32.04 per capita, and total expenditures $821,491,575, or $24.70 per capita. The total outlay for the 219 cities was $286,529,990, or $8.61 per capita. From this last returns could be expected which, on the average, would still further reduce the expenditures.

Next to taxes, the largest item of which was the tax on the liquor traffic, the greatest source of revenue for the cities was public service enterprises, the bulk of which came from public water systems, which doubled the amount of money spent on them.

The net indebtedness of New York city alone, $987,347,610, was three-fifths as great as all other cities of over 30,000 inhabitants taken together. The per capita indebtedness for Chicago was $28.70, and St. Louis $25.07, both of these cities having an indebtedness which was smaller than most of the small cities and far below the large ones.

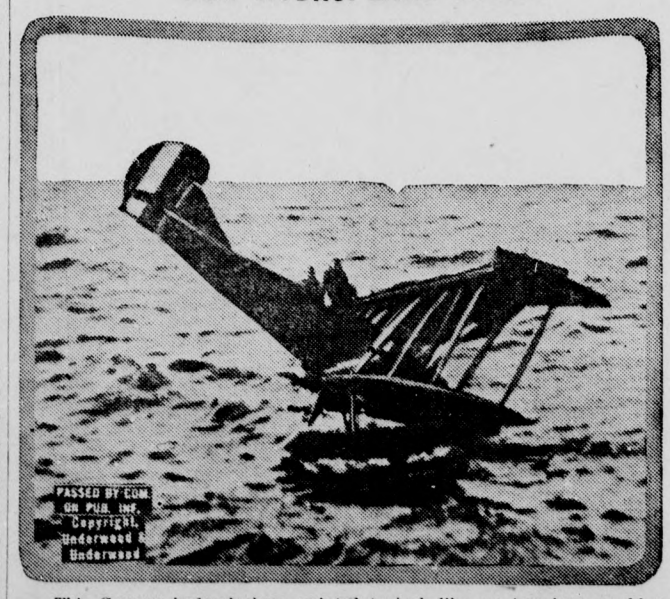
FRENCH TAPE HOLDS RELICS

Relatives of Fallen Heroes Complain of Delays in Getting Effects.

Paris.—Complaint has been lodged against the bureau in the Rue Lacretelle where relatives of men fallen in battle go to get the few sad relics the heroes left—their papers, their watches, their little keepsakes. All the effects of men killed or missing are sent to this bureau.

The complaint is that there is interminable delay, and efforts are being made to speed it up.

HUN HYDROPLANE TAKEN



This German hydroairplane, painted to look like an American machine, was brought down by the gunners of an American transport in the Mediterranean. The pilot and observer were captured and the plane was taken to an allied base.

WOMAN FOOD CONTROLLER

The Hon. Mrs. Lyttleton, deputy director women's branch of food production department, England. Mrs. Lyttleton is doing excellent work in ameliorating the food situation.

RED CROSS WORK IN ITALY

Organization Performs Big Task in Helping the Unfortunates in That Country.

Washington.—In the historic Palazzo Vecchio of Florence, Italy, the American Red Cross distributed clothing to more than 40,000 refugees and poverty-stricken Italians in two days. The contents of each parcel covered a wide variety of needs, from underwear to layettes for children yet unborn.

Part of the supply came from this country, part from stocks in neutral countries, where industrial Red Cross agents have been able to satisfy a portion of their needs, and part from the Italian market, now nearly exhausted. In addition, orders for food were distributed to persons whose needs were guaranteed, small certificates good for five lire worth of rice, canned meat or condensed milk, when presented at the city storehouses. To pay for this draft on the municipal provisions, the American Red Cross deposited 20,000 lire with the city assessor.

The press of the country commented on this relief work of the American people as "the greatest single gift on record to any Italian city during the war."

ARE DOOMED FOR WORKHOUSE

Frustrated Suicides in New Jersey Are Sent Up by Police Magistrate.

Trenton, N. J.—Despondent saloonkeepers will be committed to the workhouse by Magistrate Geraghty if they fail in attempts to kill themselves. An example was furnished recently when Michael Curley, at one time the proprietor of a prominent drinking place in the city, was sent to the institution to serve three months because he tried to drown himself in a creek. He was pulled out in the nick of time by a policeman.

When arraigned in court, clad only in a blanket, Curley delivered a brief speech in which he said: "I am sober, all right. I attended a funeral a few days ago, and then decided there was nothing more to live for, so I jumped into the creek. No one cares for me, and I'm just in the way."

Godmother to Famous Gun.

Olympia, Wash.—Mrs. Ernest Lister, wife of the governor of Washington, has accepted an invitation from the battlefields of France to act as godmother in the christening of the first gun in a French battery that has served with distinction at Verdun, on the Somme and in Flanders, and is still serving in the present drive. In her honor, Mrs. Lister's name will be inscribed on the gun.

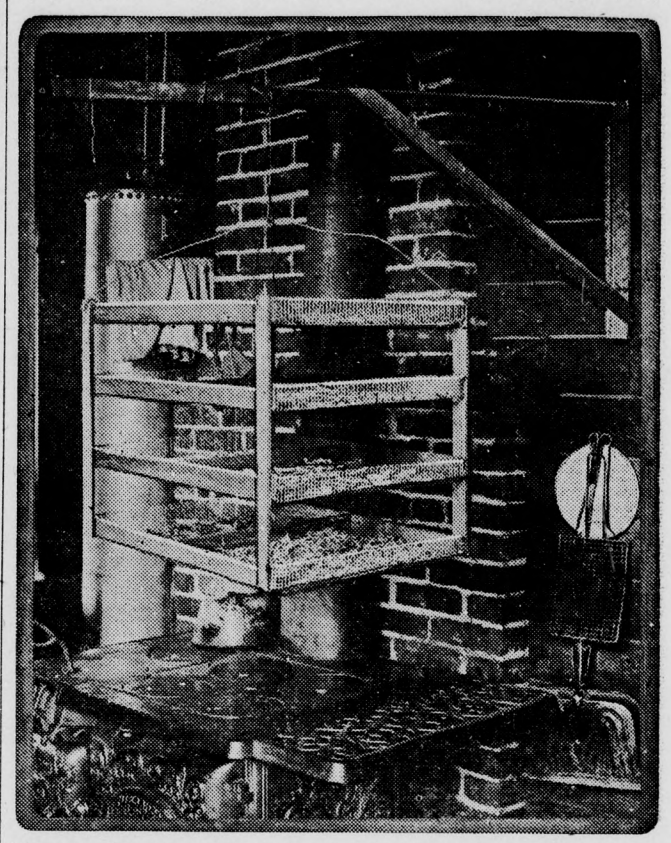
Drying Plants Save Food

Community Establishment Provides Simple and Convenient Method of Conserving Perishables

Establishment by municipalities from municipal funds of drying plants for fruits and vegetables where conditions are favorable is a most important way of preventing waste of perishables, according to the United States department of agriculture.

In municipal plants the work should be supervised by the city council or other town authorities. If the plant is not a municipal plant, it is best to place it under the guidance of some association already in existence, such as a civic improvement club, commercial club, home-school garden club, or a special community club organized for the purpose.

As an example of a club that can be formed for the purpose, a department bulletin tells of one community that has a drying plant and in which a special community club of approximately 60 farmers has been organized primarily



The Convenient Home-Made Fruit and Vegetable Dryer, Made of Lath and Wire Netting.

to look after the operation of the drying plant. The officers—president, vice president, secretary, and treasurer—constitute the executive committee and are intrusted with power to act. A simple form of constitution and by-laws has been adopted, and meetings of the club are held monthly or oftener, usually at the drying plant, which in this instance is in a room of a church building.

Municipal or government-owned drying plants have been in successful operation in European countries for years. Such plants provide village communities with a convenient and simple method of drying all sorts of produce of the home garden and orchard, as well as the vegetables and fruits shipped to the community, which might be allowed to go to waste at the stores and market places. The drying plant described in the bulletin follows closely the specifications of a community plant at Lincoln, Neb., and 11 others in that general section, all of which were operated successfully during the summer and fall of 1917.

The advantage to the busy farmer's wife in the country community cannot be overestimated, says the bulletin. Her work is heaviest in the summer when vegetables and fruits must be saved for winter use. The establishment of a community drying plant at a consolidated school, country church, or centrally-located farm home would offer a great relief from heavy kitchen duties.

Tin Cans to Aid in Winning War

Garbage, Too, Will Assist, But Fancy Articles Not Deemed Necessary by U. S.

Jade carving, lacquered shrines and carved wood jewel boxes will not help win the war, in the opinion of the American government, but tin cans and garbage will.

In its steady progress toward elimination of the great American waste, the government has put the three former items on the restricted imports list. The latter items are being looked after by other departments of the government.

Tennis rackets, tennis, golf, base, ping-pong and bowling balls; almond flour used in cosmetics; metal vases and similar luxuries also are on a newly issued restricted imports list.

The department of agriculture announces that if you do not throw away your tin cans, but save them to can the kaiser, you may make some money. If you gather 7,000 or 8,000 of them, free from rust, you may get $12 for them, according to quotations furnished by a smelter.

So worried has the government become about the sinful waste of garbage in this country that the food administration has issued an appeal to the housekeeper, saying:

"One ton of garbage contains:

"Sufficient gylcerine for 14 75-millimeter shells.

"Sufficient fatty acid for manufacture of 100 12-ounce cakes of soap; sufficient fertilizer elements to grow eight bushels of wheat; a score of other materials valuable in munitions making.

"If used as hog feed it will produce:

"One hundred pounds of good, firm, first-quality pork.

"Can you afford to destroy these valuable products when your government needs them to help win the war?

"Put less in your garbage pail and take more out. But what must go in should be kept separate from other household refuse so it can be used.

"Remember! Garbage is valuable. Keep it clean!"

SCIENCE NOTES

A simple typewriter attachment has been invented for reinking ribbon at little cost.

Concrete bases to give longer life to worn-out fence posts are a New York inventor's idea.

Sand of different colors can be fed through a new pencil for children to enable them to draw outline pictures.

To save labor and space in large post offices, a New Jersey man has invented a letter-sorting cabinet in which the letters are dropped into narrow slots and fall down chutes into larger compartments.

An Important Difference.

The gasoline situation in this country is not to be compared with that in Europe. England and France are almost entirely dependent upon imports of petroleum products and the ability to import is limited by lack of ships. It is for this reason that the use of motorcars for private use has had to be suspended except for the most urgent requirements. America, on the contrary, is the world's largest oil-producing country and is unable to export more than one-quarter of its gasoline production. To the extent that gasoline, kerosene and fuel oil are used for power purposes the supply of coal is conserved.

Penalties for Profiteering Fall on Foodstuff Dealers.

Notwithstanding Hoover's handicap in having to work with a volunteer and untrained detective force, more than 800 penalties for profiteering have been imposed on licensed dealers in foodstuffs during the last ten months. These are the "big fellows." About 150 companies and individuals have been ordered to quit business for a limited period and more than 500 have voluntarily made a money payment, usually to the Red Cross, or have temporarily abstained from doing business rather than risk more drastic penalties.

Enterprise

"How far can you travel on a gallon of gasoline?"

"Not as far as I used to," replied Mr. Chuggins; "but I'm hoping to reduce the expense by developing a by-product. The gasoline is so oily and the roads are so rough that with a little care we ought to make every trip yield a good churning of axle grease."

Boys and Girls Clear the Skin with Cuticura

The Misery Halved

"Does that girl next door to you still abuse the piano?"

"No, she's got a cornet now."

"Great Scott! That must be worse."

"Not at all. It's only half as bad. She can't sing while she's playing the cornet."

CALOMEL MAKES YOU SICK. UGH!

"Dodson's Liver Tone" better than calomel and can not salivate.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.—Adv.

THE COBBLER OF PASSY

He warms his hands above the tiny blaze
His daughter kindles; knots his nimble thread,
And greets each customer with nodding head
And lively question, "Heels of Louis Seize?—

'Tis not for me to judge your mistress' ways.
Finish, dull black? At Vaux the Duc fell dead
Leading a charge? Stage pumps of vivid red,
Monsieur?—a curious order nowadays.

"Mon capitaine, a military boot,
Stanch soled, the winter trenches to withstand?
Yes, yes, madame, brown tops to match your suit?
Mimi, a silver slipper you demand?
Death, makeshift, honor, use and vanity—
A day's work ended, pull the shades, Marie."

—Charlotte Becker in the Philadelphia Public Ledger.

1,426,000 Women at Work; Replaced 1,413,000 Men.

An increase of 1,426,000 in the number of women employed since 1914 is shown in figures announced by the bureau of labor statistics.

The greatest increase was in industries which took in 530,000 more women, but the largest proportionate increase was 214,000 additional women taken into government service. Women have replaced 1,413,000 men since 1914.

Industrial and government work have taken 400,000 women formerly employed in domestic service or in dressmaking.

Fiery Red Pimples.
A hot bath with Cuticura Soap followed by an application of Cuticura Ointment to distressing eczemas, etc., proves their wonderful properties. For free samples address "Cuticura, Dept. X, Boston." At druggists and by mail. Soap 25, Ointment 25 and 50.—Adv.

Antipathy

"Dou you expect any summer boarders this year?"

"No," answered Farmer Corntossel, "with all this work waitin' to be done I'd take such a dislike to anybody that swung in a hammock an' read novels that I wouldn't have 'em round."

Dr. Pierce's Pellets are best for liver bowels and stomach. One little Pellet for a laxative—three for a cathartic. —Adv.

A Disgusted Hobo

"So you're goin' to work," said Meandering Mike.

"You bet I am," replied Plodding Pete. "The I. W. W. has took all the dignity out o' loafin'."

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.—Adv.

Enemy Crops Are a Failure

Germany Is in a Very Bad Plight for Grain, Fruit and Vegetables This Year.

Nature is conducting a "starvation drive" against Germany and Austria.

While the crops of America and her allies promise this year to break all records for size, those of Germany and her allies will be smaller than at any time since the war began.

Widespread drought enveloped the central empires during April, May and June, which, combined with intense heat and an unseasonable frost during the first five days of June, stopped the development of all the vegetables and roots so urgently needed by the Teutons.

The frost destroyed one-third of the potato crop, especially in the northern part of the country. Peas and beans also were seriously damaged. At the same time the heat and drought increased the ravages of all kinds of pestiferous insects, so the crop of apples and peas will be insignificant. It also delayed the wheat crop and with the failure of Roumania and the Ukraine to deliver the expected wheat, Germany is in a bad way.

On the other hand, America's wheat crop will exceed 800,000,000 bushels, if it doesn't reach the billion-bushel mark predicted earlier in the season. The corn crop forecasted will be 3,160,000,000 bushels, breaking all records. The oat crop also will be a bumper one.

Canadian crop estimates differ, owing to the fact that the wheat country is so vast and enjoys varying weather, but indications are for a record crop for our northern ally also.

English crop experts report favorably on the prospects for this year, and good crops in the uninvaded portions of France, with an average yield in Holland and Spain, are predicted.

Italy, it is anticipated, will produce 164,000,000 bushels of wheat as against 140,000,000 bushels last year. An abundance of wheat is promised from India, Australia and Argentina. The question with those countries is one of tonnage and not of the size of the crop.

It doesn't look, therefore, as if the allied peoples will starve this year. The restrictions on the use of flour probably will be modified to a great degree by the food administration.

But the Germans will tighten their belts another notch and wait hungrily for the "victorious peace" their rulers have promised them.

Frank Schulte Comes Back After He Was Counted Down and Out as a Ball Player

Some ball players are often counted as down and out, but refuse to quit. Frank Schulte is one of these. He was regarded as a has-been in the National league and was finally cast adrift. He declined to go to the minors and sought a position in the American league. Clark Griffith of

Frank Schulte.

Washington picked him up and is not sorry for it, as Schulte has been hitting better for the Senators than he did in the National league for several seasons. He has proved a valuable man in the pinches and has made it possible for Griffith's club to win many games with his long drives. Reports have it that he is also playing splendidly in the outfield.

Castor Oil Is Soon to Be Off the Market, According To Druggists' Prediction

Castor oil, the public's one unfailing remedy for all ills, is about to go off the market. At least this is the prediction of Indianapolis wholesale druggists, who say that it is only a matter of a few months until the oil will be dropped from druggists' price lists.

Again the war is to blame. The oil is made from the castor bean, which for years has been imported by the United States from the East Indies by the thousands of pounds. Now the war not only has curtailed the importation of the bean enormously, but has created a demand for the oil derived from it that would have taxed the capacity of manufacturers had they been able to secure the normal supply of the raw product.

The government has found, drug dealers say, that no other oil is as perfect a lubricant for the type of engines used in the country's airplanes as castor oil. Consequently orders have gone forth from Washington diverting the present supply of castor oil in drug warehouses from civilian to federal use.

Goat's Milk Popular.

Canned goats' milk is finding an increasing market all over the world, and is said to be a profitable industry. In the course of the year the goat will produce 12 times its weight, but the goat is not so reliable as an all-year-round source of supply. Goats' milk is very rich, and is in demand as a food for invalids and many children, and the goat is said to be further free from tuberculosis.

How to Can Without Sugar

Fruits Will Keep Perfectly When Properly Canned in Water

"Keep canning, sugar or no sugar," should be the motto of housewives throughout the country this fall. If you can't get enough sugar for home canning put up your fruit without it, advises the United States department of agriculture. The products will keep perfectly until a time when more sugar is available or until a sugar substitute program has been worked out. Fruits put up in this way are excellent for pie-filling and salads and may be used in desserts, puddings, ices and punches.

In canning fruit without sugar, can the product the day it is picked. Cull, stem, seed, and clean fruit by placing in strainer and pouring cold water over it. Pack the product carefully in hot glass jars or tin cans until full. Use a tablespoon, wooden ladle, or table knife for packing purposes. Pour boiling hot water over the product in the hot jar. Place rubbers and caps in position, not tight. If using tin cans, seal completely. Place in the sterilizer vat, or canner, and sterilize for the length of time given below according to the particular type of outfit used:

	Minutes.
Hot water bath, homemade or commercial	30
Water seal, 214 degrees	20
5 pounds steam pressure	12
10 pounds steam pressure	10

After sterilizing remove the filled containers. Seal jars; invert to cool and test the joints. Wrap in paper to prevent bleaching and store in a dry, cool place. If tin cans are used it will be found advantageous to plunge them into cold water immediately after sterilization to cool them quickly.

Short and Snappy.

Any man can take himself seriously, but success is getting others to take him that way.

It's hard to convince a lazy man that the sunrise is a sight worth getting up to see.

Just bear in mind that when your conversation is worth listening to you will always have an audience.

The man who can't see that by sticking to his lathe and turning out as many pieces of needed machinery as possible he is helping the soldiers overseas to win the war, has mighty little imagination.

American Red Cross Gives Every Soldier Comfort Kit.

Every American soldier now entering the trenches carries an American Red Cross comfort kit, containing towel, shirt, writing paper, pencil, soap, handkerchief, socks, mirror and tobacco. The number of kits cannot be stated but the fact that every soldier has one means that the work done by the American women is a big comfort to the soldiers now on the firing line. This fact should be a solace to American women who have made them as well as to the soldiers. This statement is made on the authority of Maj. James H. Perkins, American Red Cross commissioner to Europe. It is added that more socks and tobacco are needed.

Population Center Changes.

When the census was taken in 1910 the center of population was in the city of Bloomington, Ind. When the first census was taken in 1790 the center of population was 23 miles east of Baltimore, Md.

A WOMAN'S BURDENS
are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weaknesses, delicate derangements, and painful disorders that afflict her sex, she will find relief and emancipation from her troubles in Dr. Pierce's Favorite Prescription. If she's overworked, nervous, or "run-down," she finds new life and strength. It's a powerful, invigorating tonic and nervine which was discovered and used by an eminent physician for many years, in all cases of "female complaints" and weaknesses. For young girls just entering womanhood; for women at the critical "change of life;" in bearing-down sensations, periodical pains, ulcerations, inflammation, and every kindred ailment, the "Favorite Prescription" will benefit or cure.
Liquid or Tablets. Tablets 60c.—Adv.

"The young lawyer I spoke of was strictly professional in his love-making."

"In what way?"

"His attention was arrested by a pretty girl and he carried his case to court."

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial." —Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Ruin In Its Wake

"Five Million Men in France!"

If the Americans at Cantigny, at Chateau Thierry, along the Marne and around Soissons, has proved a whirlwind which von Hindenburg could not withstand this year, what will be the German terror when "Forward to Victory" rings out next year to armies that hide the plains.

The rich blood of sacrifice already strengthens the soil of American resolution from which will spring the flower of triumph.

The sacrifice abroad must be met by sacrifice at home. No effort we at home can make will approach the price paid willingly by those who do not return from the battle for Democracy.

Register the measure of your support by your oversubscription of your quota of the Fourth Liberty Loan.

AN APPEAL TO PATRIOTS

IS your name on the Great Register of your voting precinct?

Only those who have registered since January 1st of this year, from the precincts in which they now reside, will be allowed to vote at the general election November 5th.

Any citizen of the United States, who ON NOVEMBER 5TH will have been in California one year and in the county ninety days and in the precinct thirty days, may register AT ONCE.

If Democracy is to abide, good citizens must use their franchise. Voting is just as much a patriotic duty as saving and fighting. Buy Liberty Bonds, of course; every good Citizen who can possibly do so will buy these bonds and will also give to the Red Cross, and to other war philanthropies, but if while doing these things they neglect to vote they are not doing their full patriotic duty.

The boys at the front are fighting aud many of them are dying for democracy. Those who stay at home should register and vote for it.

Registration Closes Saturday, October 5th.

ONE after-dinner speaker has dubbed our enemy the "Germhuns" which is quite to the point. In America the term "Hun-germs" would more nearly fit the seditious propoganda that those same Huns are eternally spreading in our midst. The only way to stop the germ production is to "get the Hun." LIBERTY BONDS WILL DO IT. Volunteer your limit subscription today.

APRIL 19TH, 1775, was one of the greatest "Volunteer Days" this Nation ever held. Let us make to-day the greatest "Volunteer Day" the world has ever known.

HAVE you noticed how familiar we are all becoming with those geographical Bible names? The historical story of the holy land is also quite interesting.

All Ready

To day is "volunteer day" for the fourth Liberty Loan. Have you voted? At the several school houses and polling places, the district council chairman will have the matter in charge assisted by the ladies' army.

J. F. Duncan, chairman of the fourth loan drive in the Campbell Council, delivered the supplies and final instructions to those in charge at the executive committee last evening.

Fourteen members of the Campbell War Work Council attended the drive rally banquet in San Jose Wednesday evening to hear Mr. Edwin Fretz just from France. The Campbell percentage far out-distanced any other small town of the county, to all appearances. Those who had the good fortune to hear this big man have said it was the best talk they had heard. From here were: Chairman J. C. Ainsley, J. F. Duncan, C. H. Whitman, C. N. Cooper, J. L. Hagelin, Ralston Alison, J. E. Wiesendanger, H. E. Brandenburg, W. H. Lloyd, G. S. Robson, Earl Snapp, F. S. Newcomb, W. R. Coupland and H. C. Smith.

A bond slacker is the Kaiser's backer.

Mr. and Mrs. C. D. Cutting of Pacific Grove are here visiting their sons and their families.

Lieut. W. I. Merrill, on his return to Goat Island Sunday morning, ran into a 40-day quarantine by which the entire naval training station is shut in. Edgar Kennedy and Charles Hancock are in training at this point.

Guild President Leaves

Mrs. Nannie Sykes left Sunday to join her daughter, Miss Abbie, who is teaching in Vallejo. Mrs. Sykes planned to visit friends in Alameda on the way.

Mrs. and Miss Sykes had made their home in Campbell for a number of years, during which Miss Sykes was in charge of the Commercial Work of the C. U. H. S., which had an enviable reputation under her tutelage; and several graduates from which are now occupying very good positions.

During their residence here the ladies were associated with the Congregational church, and at the time of leaving, Mrs. Sykes was president of the Guild and at the meeting last Thursday the ladies present made it the occasion of a little informal farewell in her honor. Several who were not in attendance have expressed their regrets that the affair had not been more generally known so that a greater number would have been out.

The Press joins with their friends in wishing them a pleasant life in their new home and continued success to Miss Sykes in her work.

Volunteer to-day.

Miss Ethel Curry has a new roadster with which to go to and from her school above Los Gatos.

For Sale. Rev. W. H. Lloyd has for immediate sale a Bridge Beach cook stove, No. 8, with warming oven, water front and connections complete; a piece of linoleum about 12 x 13 ft.; and 20 white leghorn hens 1½ and 2½ years old, good layers—when eggs are cheap.

Local and Personal

Volunteer Today.

Buy Thrift Stamps to-day!

Wendell Hawkinson expects to go to Camp Kearny for training about Oct. 7. Lawrence has arrived "fit for fighting" in France.

The local Red Cross rooms will be open this Friday afternoon to receive clothing for Belgian Relief. There will be no sewing.

The W. B. Kammerer family is quarantined for measles, Mr. Kammerer boarding at the E. E. Weeks home during the siege.

Miss Lucy Vandergon, who was in the Campbell Bank thru the summer, leaves tomorrow for Morgan Hill where she will teach this year.

Friends of Mrs. G. N. Stray were pleased to see her in Campbell Wednesday which was her first time out for four weeks on account of a sprained ankle.

Rev. J. H. Wythe, a former pastor of the Campbell Methodist church, retired from active pastorate at the last conference and will direct war garden work.

Miss Janice Baugh is assisting in the Campbell Branch of the Garden City Bank, having entered upon her duties when Mr. Archibald began his vacation.

Vernon Robinson of the U. S. Marines stationed at Bremerton navy yards came down this week on a ten day's furlough on business and to visit his mother-in-law, Mrs. Craig.

At the request of the Rev. E. G. Keith, the newly appointed pastor of the Methodist church, Rev. W. H. Lloyd will conduct the services here both morning and evening this next Sunday.

Mrs. H. W. Williams and Mrs. Barnes went to Oakland last week to visit friends. Mrs. Barnes will go on to Martinez to see her brother and Mrs. Williams is expected home Sunday.

Mrs. Susan Castle returned Friday from Morgan Hill where she spent several weeks with Mrs. Emaline Bagwill. During her visit, Mrs. Castle was the unfortunate victim of an attack of sciatic rheumatism.

The friends and neighbors of the Rev. W. H. Lloyd and family are invited to an informal reception in the Methodist church parlors Tuesday evening, to say good-bye before they leave for their new field of activity in San Jose.

Celebrate Anniversary

The gathering of the families represented in the Pundita Circle in honor of the tenth anniversary of its organization, which was held at the home of Mr. and Mrs. James Turner proved to be another enjoyable event in the history of that Club.

While not all of the present members were there, there were but few absentees, and a spirit of jollity and good fellowship prevailed.

Mrs. Corning, the president, presided over the program hour, the numbers of which, barring two had been culled from the last year's meetings. Attention was called by the strains of "America."

Mrs. Beal read a very interesting history of the various activities of the circle, literary, benevolent, and social, since its inception. The reading of the list of charter members aroused the only sad thots of the evening, as some of them have since joined the heavenly circle and most of the others have moved away. The names included the Misses Palmer and Mesdames Nelson, Savage, Cook, Austin, Ringe, Sadler, Ellison, Woodhull and Beal, the last two being the only ones still in the circle. The ladies have accomplished an enviable amount of work along all lines and have a record of which to be proud.

Mrs. Corning gave a brief resume of the year outlining the work of the four departments. During the summer they have worked on Belgian relief and now will sew at the Red Cross rooms. Mrs. Purmort told of the work of the Junior Pundita which was organized for work last winter and of which Marie Purmort is president.

A very good paper on "Fathers" was read by Mrs. Gill, for the benefit of the father's present.

Mrs. Watrous gave a humorous description of a little skit that some of the club attempted but which "died in infancy," altho proving the inspiration of an original poem, "The Play That Failed," by Mrs. Tait which she read amid much laughter.

The "Origin and Organization of the Red Cross," a topic which Mrs. M. E. Purmort had ably presented was repeated and proved very instructive.

"Readings" by Mrs. Watrous, proved to be just a word in regard to her campaign for the Y. W. C. A. work, and ending in an introduction of Mrs. H. C. Smith, who gave a short reading.

A hum of conversation arose immediately after and soon trays appeared bearing ice cream and Hoover wafers. Later a grand march ended at the fireplace, where the paper dishes soon made a "hot place" for the Kaiser—a big squash painted to represent his "Majestat", and adorned with a coal-scuttle helmet.

The company wended its homeward way with wishes for a similar good time at an early date.

PREPAREDNESS - -

Is a most essential requirement for students who expect to return to school.

Most of the schools will begin this month which makes the time for preparation none too long. So prepare.

We cater especially to the school trade in its season, and believe me, we enjoy a good patronage, I thank you.

Miss Schallenberger To Speak Here

The attention of the ladies is called to the meeting Tuesday afternoon, Oct. 1st, at the Grammar school at which Miss Schallenberger, executive secretary of the Red Cross, and Mrs. Fowler will speak. The Jr. Red Cross has been entirely reorganized as to work and these ladies will explain what the Home and School Club can do during this season.

This will be the first regular business meeting of the year, as well, and a large attendance is urged, in respect to the visitors and that all interested may get an idea of the work to be done.

There is need for every one to be helping somewhere, no one can say that there isn't a place for her in all this new field of labor.

Mrs. Watrous spoke Tuesday on "Women In War Industries" and gave some startling statistics as to the number of women engaged in the various lines of work. She gave a number of incidents and anecdotes of the actual work done by Y. W. C. A. secretaries at various war factories and mill towns among the women. She told of the increased efficiency of workers where Y. W. accommodations and workers have been installed.

Women's Meeting Sunday

Sunday afternoon the Congregational auditorium was the gathering place for a goodly number of women of the vicinity, who had responded to the invitation of the W. C. T. U. to be present and listen to addresses by two speakers.

Mrs. A. J. Farley presided and the meeting was opened with the singing of a hymn. Mrs. Sarah J. Dorr, state president of the W. C. T. U. offered prayer, and Mrs. David Craig played a beautiful organ arrangement of Pleyel's hymn.

Mrs. H. A. Watrous was then introduced and gave a most interesting talk on "What winning the war will mean to the women of the world." Her remarks covered the various Nations, Oriental, European and American, showing the changes that have already resulted in the different countries from the new place that woman has been compelled to take in work and social relations, and something of the help and influence the Y. W. C. A. workers have exerted in aiding the adjustment to changed conditions.

Mrs. W. B. Kammerer, altho suffering from a severe cold, sang a very pretty sacred solo, with Miss Ruth Lloyd as accompanist.

Mrs. Dorr also gave a brief resume of work accomplished in the past resulting in the abolition of liquor from the soldier's canteen and the effect it has had in educating the public to the advantages and necessity of extending that prohibition for the safe guarding of our army and navy, and finally of the near day of National prohibition for safeguarding the lives and homes of all the Nation.

The meeting closed with the singing of "America" and the ladies all felt that it had been a "worth-while" afternoon.
